

### DETAILED ACTION

This office action is responsive to amendment filed on 12/26/2007 and communication with Applicant's representative Mr. Gary W Hamilton on 3/5/2008.

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary W Hamilton on 3/5/2008.

The application has been amended as follows:

In claim 1, please delete " and " (line 5) and insert after next-level fragment (line 7) --- ; **retrieving the next-level fragment; combining the top-level fragment and the next-level fragment into an assembled fragment; obtaining a source identifier for the next-level fragment from the linking element; sending a request message for the next-level fragment using the source identifier for the next-level fragment; and receiving a response message comprising the next-level fragment --- .**

In claim 8, delete " and " (line 5) and insert after next-level fragment (line 7) --- **means for retrieving the next-level fragment; means for combining the top-level fragment and the next-level fragment into an assembled fragment; means for obtaining a source identifier for the next-level fragment from the linking element;**

**means for sending a request message for the next-level fragment using the source identifier for the next-level fragment; and means for receiving a response message comprising the next-level fragment ---.**

In claim 15, delete “ and “ (line 6) and insert --- **storage** --- (line 2 before medium), and insert after next-level fragment (line 9) --- **instructions for retrieving the next-level fragment; instructions for combining the top-level fragment and the next-level fragment into an assembled fragment; instructions for obtaining a source identifier for the next-level fragment from the linking element; instructions for sending a request message for the next-level fragment using the source identifier for the next-level fragment; and instructions for receiving a response message comprising the next-level fragment ---.**

**Cancel claims 2 – 3, 9 – 10, and 16 – 17.**

### **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yves Dalencourt whose telephone number is (571) 272-3998. The examiner can normally be reached on M-TH 7:30AM - 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on (571) 272 4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
